

PROTEUS

Distinctive design. One-touch control.

PROTEUS is a slim, modern touch keypad with a backlit LCD display and illuminated keys. Its distinctive design earned it a nomination for the **Red Dot Design Award**.

With touch keys and an intuitive menu, operating and programming your system takes a single touch. It makes full use of **S-PRO** panel features: Smart Arming Management, Exit Time Extension, Automatic Time Reduction and the **All Day Secure** function.

It features an RFID card reader, a room thermostat and a zone input, and is available in white and black.
